INSTITUTE

Lens and Iris Visit the Beach

Instructions: Fill your snowglobe on the next page with all things you need at the beach and find at the beach!
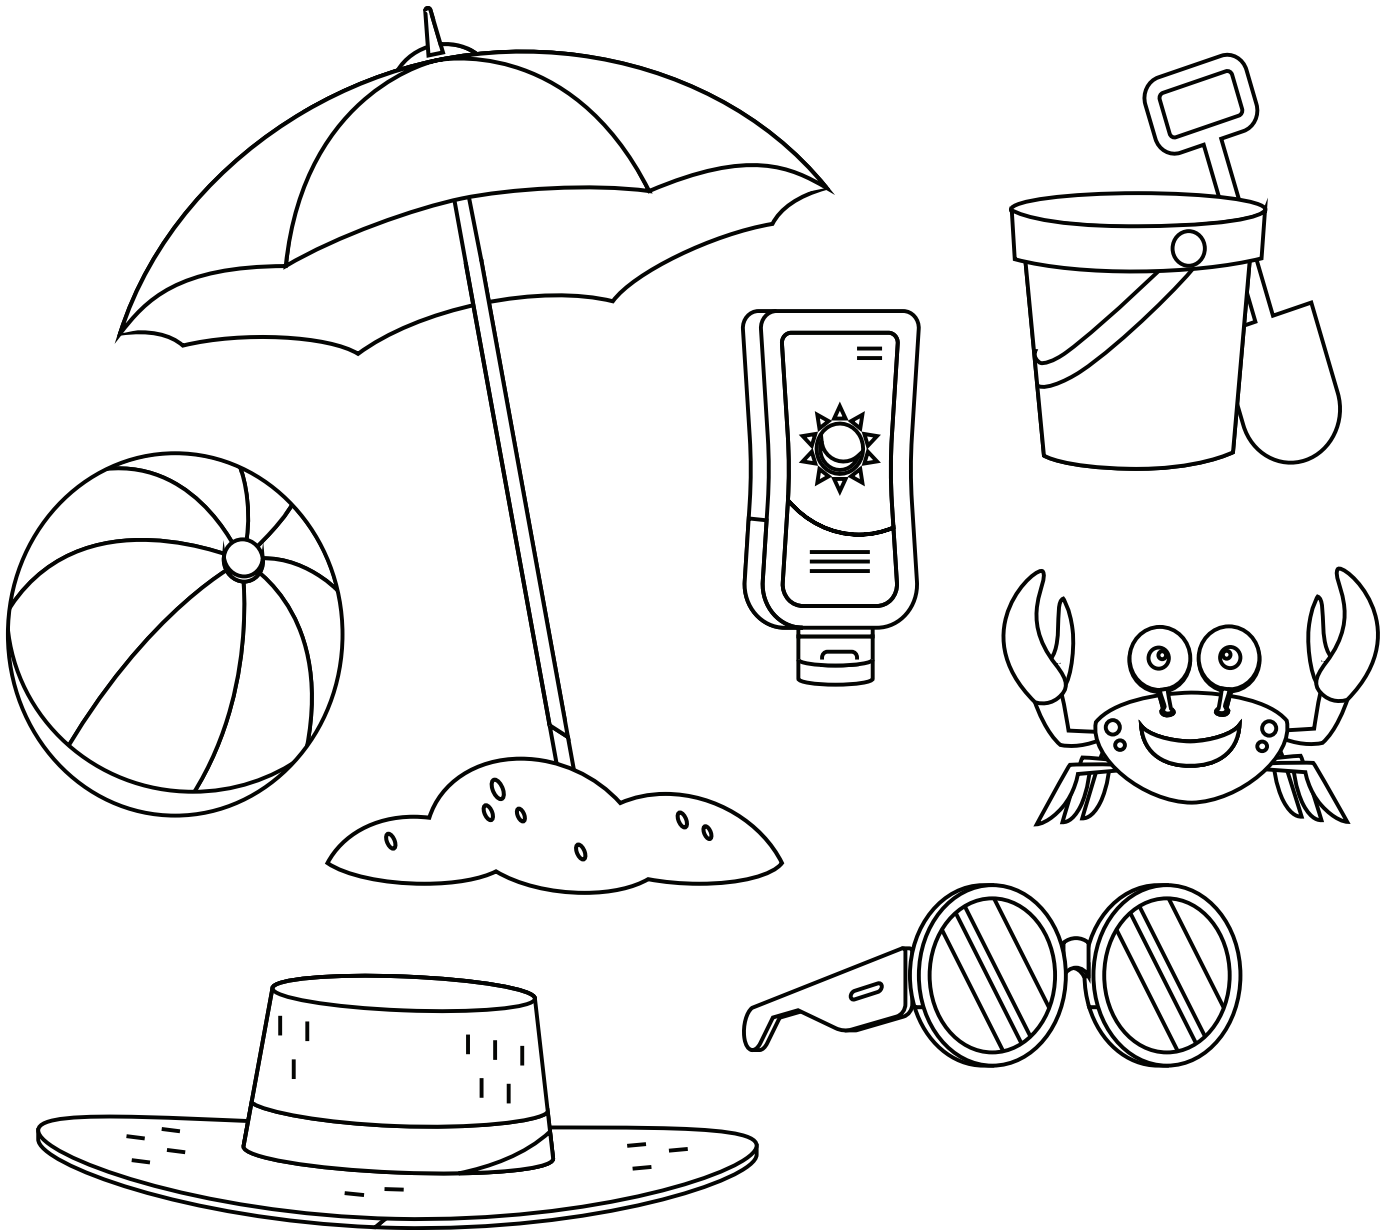

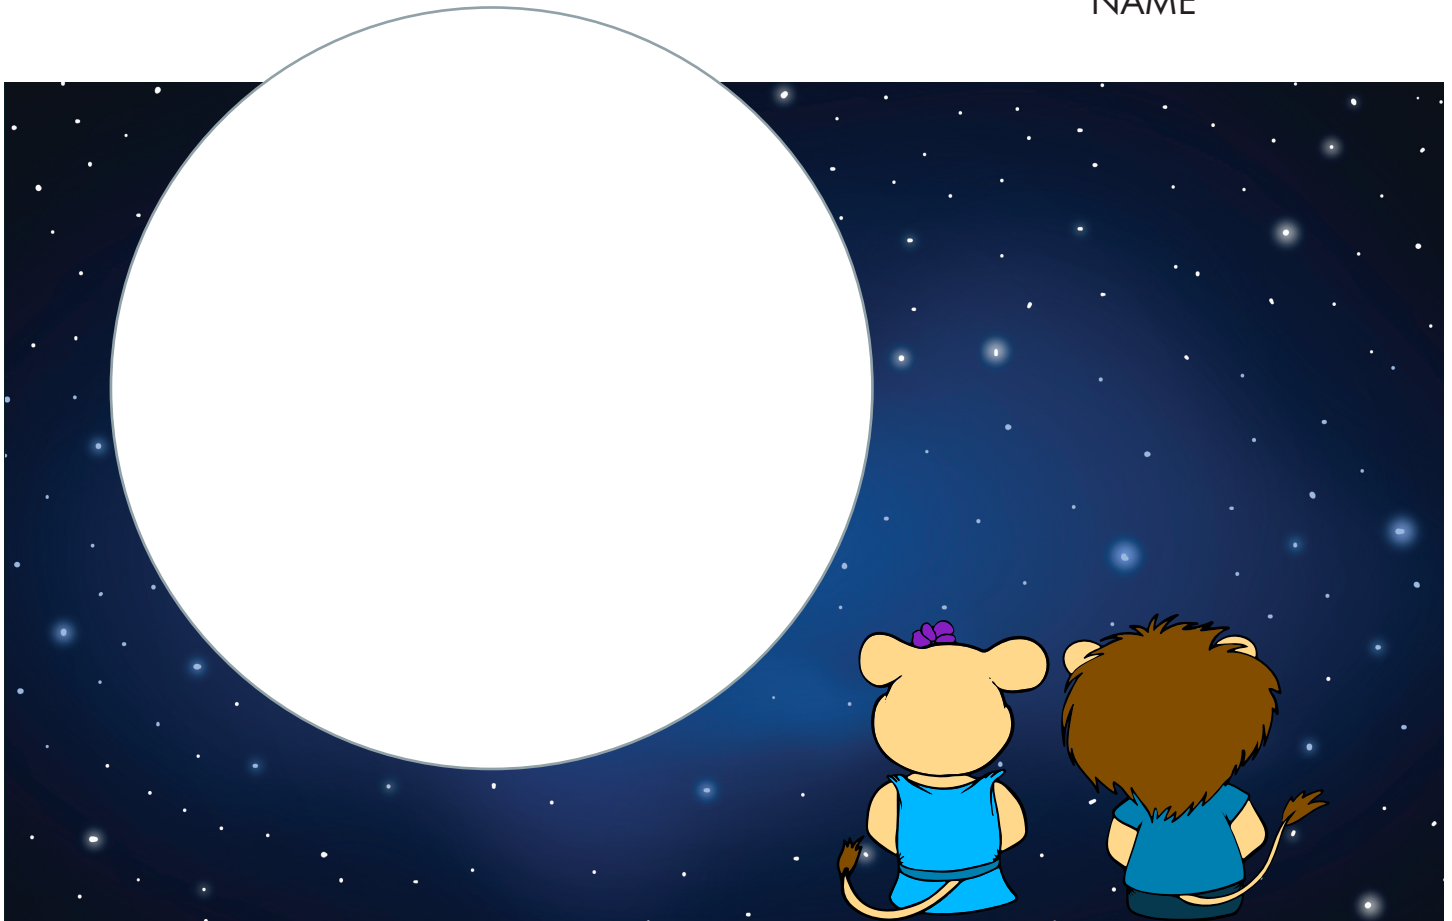

Lens and Iris Visit the Beach

When I Look at the Moon

Take-Home Page

_____

NAME

Lens and Iris love to look at the moon. It's been said if you look carefully, you can see shapes. Some people see a man in the moon, some see a rabbit. What do you see? From a window in your home, or outside with a parent, take some time to observe the moon. Draw and write what you see.

INSTITUTE

Eating The Rainbow

_____   NAME

Instructions: Color the rainbow made of healthy foods

Eating The Rainbow

Instructions: Lens and Iris need help selecting healthy foods to fill their baskets.

LIONS
WORLD VISION
INSTITUTE

Funglasses

Instructions: Lens and Iris are going to the beach and want the class to join them! It's important for everyone to remember things like a towel and beach toys, but what about your eyes? The sun can cause sun damage and is one of the leading causes of vision problems in children. Just like applying sunscreen is important for healthy skin, wearing sunglasses and a wide-brimmed hat helps keep our eyes healthy, too. Instruct students to have fun decorating or coloring their funglasses!
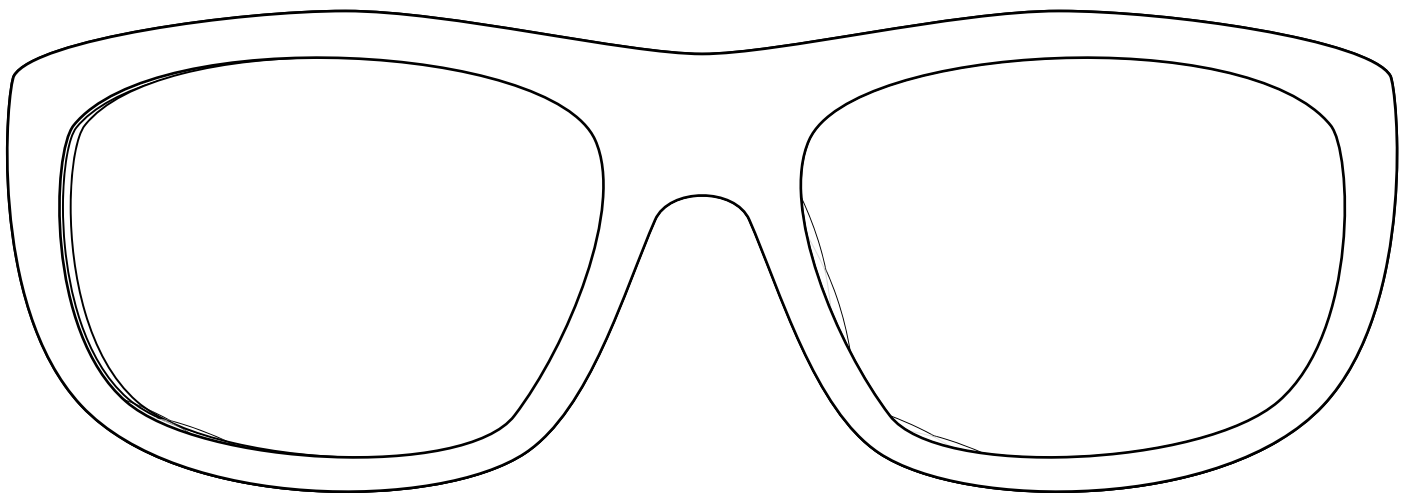

Eye Protection

Instructions: Match the activity to its Appropriate Eye Protective Wear.

Swimming

Playing at the beach

Softball

# Baseball

Basketball

# Cycling

Football

Soccer

Animal Tracks Safari

Instructions: Measure the animal paws and write their size in the blank space
